

MK JANURA
YOUR DREAMS OUR PROJECT

MK ACADEMY

It is a project that has been created having in mind growth and development of students of the Electrical Engineering and Environmental Protection Faculties. The aim of the program is to familiarize students with the nature of the work of designers of power, teleinformation, refrigeration, heating, ventilation, fire protection and plumbing installations. We give the opportunity to develop skills in the use of both 2D software (Autodesk AutoCAD) and 3D modeling in the BIM environment (Autodesk REVIT). The engineers-to-be gain practical professional skills under the supervision of experienced designers. After completing the internship, all participants receive certificates of completion of the MK Academy.

A paid internship program awaits the best participants.

MK PAID INTERNSHIP

It is the next stage of your career at MK JANURA. Participation in the paid internship program allows you not only to deepen your knowledge but also to get your first job during your studies (full-time or extramural). During this period, which often precedes permanent cooperation with us, you can count on:

- expanding practical knowledge by participating in large Polish and foreign projects
- further development of skills in handling industry programs
- internship hours tailored to you

MK EMPLOYMENT

We offer an interesting and stable employment in a young and ambitious project team. We are a company with a well-established position on the market of modern construction. We cooperate with the best Architectural Studios and General Contractors on large and prestigious investments. Moreover, work in our company can be included in the professional experience period necessary to obtain your certified building qualifications. As a company, we make a well-synchronized team and provide continuous and dynamic growth of your competence and practical skills. We are attentive to our employees and provide them with a wide range of benefits, including Medcover medical package and Multisport sports package.

Want to join us? It's as easy as that:

- send your CV at: rekrecacja@janura.pl
- come to an interview
